

NEWS RELEASE

PETER PATTERSON NAMED EMCON'S PRESIDENT

OTTAWA, ONTARIO--July 22, 2009--William Anderson, President of API Cryptek Inc., today announced that Peter Patterson has succeeded Peter Doig in the position of President of EMCON. Mr. Patterson will be responsible for EMCON's business strategy and overall operational management of the Company. Mr. Doig will remain with the organization through a transition period and then will commence his retirement.

Peter Patterson, a 25-year veteran of the high technology sector in Ottawa, most recently held the position of EMCON's Director of Sales. He joined EMCON in 2007 after twelve years as a Partner and Vice President of Sales & Marketing with BridgeTech Systems Inc., a company providing integrated business solutions to the private sector. Prior to joining BridgeTech Systems, Peter held multiple account management applications and field engineer positions with both large and small enterprises including CNG Group, AT&T Canada, Timeplex Canada and Motorola.

Announcing this appointment, William Anderson stated, "EMCON is very well positioned for continued growth as the need for providing protection of sensitive and classified information is as strong as ever." Anderson added, "I am pleased that Peter Patterson has agreed to lead EMCON into the future and his extensive business background will greatly benefit the Company."

"This is a truly great opportunity as I am pleased to be taking over from Peter Doig. EMCON and API Cryptek have tremendous potential and I look forward to strengthening our position in the global marketplace," said Peter Patterson. "I appreciate Peter Doig's contribution during his 16 successful years with the company. His commitment to and leadership of EMCON produced consistent revenue growth and a strong management team. We all wish him well in his retirement."

About EMCON

EMCON, a subsidiary of API Cryptek Inc., is a world-leader in providing services and products that facilitate the processing of sensitive or classified information within Government environments. For over 23 years, EMCON has supplied customers with specialized services and solutions to suppress compromising emanations. EMCON is the largest TEMPEST products company in Canada with exports to the USA and other NATO member countries. EMCON is qualified under the Cyber Protection Supply Arrangement (CPSA) to supply EMSEC and TEMPEST services to the Federal Government. The Company is certified to the ISO 9001:2000 standard and is a long-standing member of the Canadian Industrial TEMPEST Program.
